Please list current and/or previous community and civic organizations or causes in which you have been involved and dates active:

Cap Ex Committee Chair (2018-2019), then Board Member and President of the FCF HOA

I was a board member and then president of the Keswick Improvement Association, Inc. in North Baltimore in the 1980's. I was also the president of the North Baltimore Neighborhood Coalition, an umbrella organization that negotiated a land use and student behavior agreement with Loyola College in the 1980's. I have been on multiple bar association and trade association committees in the various professional organizations associated with my legal and business career.

What background and experience do you have that qualifies you for a Director's Position?

40+ plus years as an attorney, with 20 in private corporate practice and 20+ years as a general counsel in the consumer chemical, pharma and biotech industries.

Homeowner since 1980 in various neighborhoods with extensive participation in neighborhood matters.

What are your reasons for seeking election to the Board of Directors?

I have lived in many places. FCF is the best neighborhood I have lived in. It is a great group of people living in one of the nicest areas anywhere. I want to continue to work, in conjunction with the other Board members, the various committee chairs and committee members, and the residents to keep FCF as a vital, growing and well-run residential community.

Are you available to attend monthly Board Meetings? **Yes**
